**Stonehouse Building Products Names McLellan
Vice President of Manufacturing**

New hire responsible for plant operations

FLORENCE, Ky. [February 20, 2006] – Stonehouse Building Products, manufacturer of solid surface vanity tops, announced that Philip McLellan has been named vice president of manufacturing for the company.

McLellan brings more than 13 years of experience to the position and will be responsible for overseeing the operations related functions of Stonehouse’s plants in Florence, Ky., and Hamersville, Ohio.

McLellan joins the company from Toyota Motor Manufacturing where he served as manufacturing engineer and manufacturing engineering manager. During his time with Toyota, he spent several years living in Japan while working on manufacturing preparation projects, and also worked in Canada for two years to lead the launch of the first Lexus model built in North American.

He is a graduate of the Georgia Institute of Technology with a degree in Mechanical Engineering and a minor in Economics. A native of Michigan, McLellan is proficient in Japanese. He resides in Union, Ky., with his wife and three children.

“Phil brings a tremendous depth of understanding of the manufacturing process to our team,” said Bill Barkalow, CEO and president of Stonehouse. “We will utilize his experience and ideas to maximize efficiency and realize the potential of our manufacturing facilities.”
