Stonehouse Building Products

Product Overview

Stonehouse Building Products provides customized solid surface vanity top solutions, offering design options in style, shape, color, and size. Stonehouse vanity tops can complement any bathroom renovation with the durability and aesthetics of conventional solid surface products – but with a much lighter weight and significantly lower cost.

Vanity Shape and Style

Homeowners can customize Stonehouse vanity tops to fit the exact specifications and design of the bathroom:

- Specific length and width
- Integral or loose backsplash
- Bowl location – centered or offset
- A special angle or radius

Color and Finish

Stonehouse offers more than 60 colors in either matte or gloss finishes, creating a nearly endless number of custom alternatives. Color categories include:

- Ultra Granite: Larger flecks of color create the look of real granite
- Medium Granite: Additional design flexibility with more than 20 alternatives
- Fine Granite: Small color flecks for consistent, refined appearance
- Solids Collection: Available in white or bone, with no pattern

Bowl Style and Options

Stonehouse bowl styles enhance and complement the vanity as well as the entire bathroom design. Customers can select from:

- Six one-piece styles
- Three drop-in styles
- Bowl colors that complement or match vanity top for an additional design element
- Features such as end splashes, overflows, faucet drills

Stonehouse products are designed to be easy to maintain with standard household cleaners. Stonehouse offers a limited lifetime warranty on every product.
